Total Questions: 2

PDF CONTENT INFORMATION:

This PDF contains questions extracted from O-Level Physics past papers.

Each question includes the available text and metadata.

Note: Some questions may reference figures or diagrams from the original papers.

For visual elements, please refer to the original question papers.

QUESTION 1

QUESTION TEXT:

(ii) Describe how the compass is used to plot the magnetic field line.

Note: This may be a partial question. Complete questions typically include multiple parts and detailed instructions.

QUESTION DETAILS:

- Question Number: 7(a)(ii)
- Marks: 3
- Difficulty: MEDIUM
- Source: 5054 summer Paper

DIAGRAMS & FIGURES:

- Contains vector diagrams or physics illustrations
- & p IMPORTANT: This question requires visual elements from the original

- Students should refer to the original question paper for complete figures
- Diagrams are essential for understanding and solving this question

WHAT THE COMPLETE QUESTION SHOULD CONTAIN:

- Full problem statement with context and setup
- Multiple question parts, typically (a), (b), (c), etc.
- Specific calculations or analysis required
- Mark allocations for each part
- Clear instructions on what students need to find or prove

ANSWER SPACE (for practice):

=====

QUESTION 2

=====

QUESTION TEXT:

(ii) Describe how the graph... B is larger than the magnitude of the deceleration of trolley A.

⚠ Note: This may be a partial question. Complete questions typically include multiple parts and detailed instructions.

QUESTION DETAILS:

- Question Number: 1(a)(ii)
- Marks: 1
- Difficulty: MEDIUM
- Source: 5054 summer Paper

DIAGRAMS & FIGURES:

- Contains vector diagrams or physics illustrations
